

Correlation Value: 0.6935015526493814

P-Value: 0.0

The test supports the possibility that the variable values are colinear.

Correlation Value: 0.18267061604736465

P-Value: 4.718964541211067e-233

The test does not support the possibility that the variable values are monotonic.

Original size: 92011

New size: 31309

The two levels are colinearly related.
