

Correlation Value: 0.14800124914300827

P-Value: 6.179183440541869e-138

The test does not support the possibility that the variable values are colinear.

Correlation Value: 0.6660924556729317

P-Value: 0.0

The test supports the possibility that the variable values are monotonic, and not linear.

Original size: 92011

New size: 28221

The two levels are monotonically and not linear.
