

The value falls within the interval, including non-normal distribution

- Kurtosis Series -

Kurtosis value: {kurt\_val}

- Skew Series -

Skew value: {skew\_val}

- Kurtosis Test Score -

Kurtosis test score: -1.5974558442671183

- Skew Test Score -

Skew test score: 0.26433630127661695

Test scores do not indicate non-normal distribution

Both tests conclude that distribution is possibly normal

The histogram does appear to resemble a normal distribution.

Their skewness, kurtosis values and test scores seem to indicate a normal distribution.
