

```
Size: 300
Max: 13764
Min: 2107
Mean: 6368.47
Median: 13764
Sum: 2794634068.67
Variance: 9346602.24
Standard Deviation: 3057.22
```

Looking at both plots visually, the top scatter plot and the bottom scatter plot are vastly different. Top plot's data, in reference to the y- axis are closer to the line of best fit and more condensed while the bottom is more spread out. Looking at the numbers, the variance of the bottom plot is greater by about 4 million.
